 **pressproducts**

The BindQuip™ eWire21 or the eWire31 is used to punch and bind either 2:1" or 3:1" Twin Wire® respectively.

A diameter scale enables the operator to precisely determine the appropriate pitch, Twin Wire® diameter and closing position while the open ended punch throat allows longer documents to be aligned and punched easily.

The "U" shaped handle maximises punching strength for effortless perforation and the Twin Wire® closer guarantees perfectly bound documents time after time.
