Single sided automatic laminating machine
SADF-540

GM3

Compact and user-friendly for use with single sided thermal lamination.

Chrome Roller

High speed two step automatic feeding system

Automatic cutting system

Touch screen operation

- Fully automatic laminating machine.
- Chrome rollers ensure increased heat accuracy and stability.
- Laminates various paper sizes from 210mm x 290mm up to 540mm x 780mm.
- Compact and user-friendly.
- Reliability of Schneider and Omron parts.
- Ideal for Litho and Digital Printing.
- Laminating speed: up to 30m/minute.

Single sided automatic laminating machine
SADF-540

Features

The SADF-540 is a fully automatic, single sided laminating machine. This machine is cost effective and energy efficient and its user friendly design means that the machine can easily be operated by one person.

Configuration

1. The machine comes standard with an automatic document feeder system which is equipped with a misfeed sensor. If the paper sheets run out or if there is a break in the process, the machine will automatically stop to avoid damaging the rollers.
2. The user friendly interface with colour touchscreen simplifies operation.
   This allows the operator to easily control paper sizes, overlapping and machine speeds. The operator is able to check the status of the job progress at any time.
3. Intelligent constant temperature roller. ensures accurate temperature control.
4. A pneumatic pressurizing system provides consistent roller pressure which can be adjusted as required.
5. The film shaft is controlled by pneumatic pressure which allows easy change over and adjusting of laminating film rolls.
6. A tension control shaft controls the tension of the laminating film.
7. A film slitter comes standard with this machine, allowing for film to be cut to custom sizes when required.
8. A serrated wheel perforates the film edge, to assist with paper separation.

Technical Parameters

Model	SADF-540
Max Paper Size	540 x 780mm
Min Paper Size	210 x 290mm
Paper Thickness	105-500g/m^2
Max Laminating Speed	0-30m/min
Gross Power	14kw
Total Weight	1300kg
Overall Dimensions	3300 x 1250 x 1650mm

No notice will be given should there be any change to product specifications.
