

Double sided automatic laminating machine.

## SADF-540B

**GMB**

Supplied By **press products**

Compact and user-friendly for use with both single sided or double sided thermal lamination.

- Fully automatic laminating machine.
- Single or double sided lamination.
- Laminates various paper sizes from 210mm x 290mm up to 540mm x 780mm.
- Compact and user friendly.
- Intelligent constant temperature rollers.
- Pneumatic separator system.
- Reliability of Schneider and Omron parts.
- Ideal for Litho and Digital Printing.
- Laminating speed: up to 30m/minute.

# Double sided automatic laminating machine.

## SADF-540B

Supplied By **press products**

The SADF-540B is a newly developed fully automatic, double sided laminating machine, capable of both single and double sided lamination. It is compact, effective and energy efficient and its user friendly design means that the machine can easily be operated by one person.

### Features

1. The machine comes standard with an automatic document feeder system which is equipped with a misfeed sensor. If the paper sheets run out or if there is a break in the process, the machine will automatically stop to avoid damaging the rollers.
2. Intelligent constant temperature roller. To ensure accurate temperature control, both the top and the bottom rollers are equipped with independent heating controls. This ensures that heat is spread evenly and consistently during the lamination process.
3. An pneumatic pressurizing system provides consistent roller pressure which can be adjusted as required.
4. The pneumatic separating system automatically separates the laminated sheets.
5. After separation the laminated sheets are collected by the paper jogger or an optional automatic stacker.
6. The conveying table has a built in air aspirator.

### Configuration

<b>Model</b>	SADF-540B
<b>Max Paper Size</b>	540 x 780mm
<b>Min Paper Size</b>	210 x 290mm
<b>Paper Thickness</b>	105-500g/m <sup>2</sup>
<b>Max Laminating Speed</b>	0-30m/min
<b>Gross Power</b>	18kw
<b>Total Weight</b>	1500kg
<b>Overall Dimensions</b>	3200 x 1250 x 1650mm

No notice will be given should there be any change to product specifications.

### Technical Parameters

Automatic Stacker

Film Loader
