

## Plastikoiil® Binding

Available in almost any colour

### COIL DIAMETER GUIDE

Use this Diameter of Plastikoiil®	Thickness of bound material (incl. covers)	Approximate No. of sheets (based on 80g)
Pitches: 0.2475" (6.2865mm), 4:1" 6mm		
6mm	4mm	Up to 30
7mm	5mm	Up to 40
8mm	6mm	Up to 50
10mm	8mm	Up to 70
12mm	10mm	Up to 90
14mm	12mm	Up to 100
16mm	14mm	Up to 120
18mm	15mm	Up to 130
20mm	17mm	Up to 150
23mm	20mm	Up to 170
25mm	22mm	Up to 190
28mm	24mm	Up to 210
30mm	26mm	Up to 230

More available on request

Punching depth on binding edge will affect wire or coil diameter

## Twin Wire® Binding

Available in spools or cut lengths

### TWIN WIRE® BINDING GUIDE

Twin Wire® Diameter	Thickness of bound materials (incl. covers)	Approximate No. of sheets (based on 80g)
3:1" Pitch		
3/16" (4.7mm)	2.5mm	Up to 20
9/32" (7.1mm)	5mm	Up to 36
5/16" (7.9mm)	6mm	Up to 42
3/8" (9.5mm)	7mm	Up to 63
7/16" (11mm)	8mm	Up to 68
1/2" (12.7mm)	10mm	Up to 84
9/16" (14.3mm)	11mm	Up to 95
2:1" Pitch		
5/8" (16mm)	12mm	Up to 104
3/4" (19.04mm)	15mm	Up to 123
7/8" (22mm)	18mm	Up to 150
1" (25.4mm)	20mm	Up to 177
1-1/8" (28mm)	23mm	Up to 200
1-1/4" (32mm)	26mm	Up to 230

#### Square

\*\* 3:1" Pitch, 4 x 4 Hole

#### BINDING SUPPLIES

Twin Wire®  
Plastikoiil®  
Calendar Rims  
Plastic Combs, Covers  
Stitching Wire

#### LAMINATING FILMS

OPP Thermal Film  
PET Thermal Film  
Digital Film  
Pouches  
Wide Format Film

#### MACHINES

Binding  
Laminating  
Foiling  
Print Finishing  
Paper Handling

#### FOILS

Hot Stamping Foil  
Cold Foil  
Coding Foil  
Holographic Foil

#### PRINT MEDIA

Vinyl  
PVC  
Paper  
Cold Lamination  
Backlit Film

## Lamination

Available in films and rolls

### OPP MATT THERMAL LAMINATING FILM

Suitable for thermal lamination of printed and unprinted paper and paper board including: cartons, labels, book covers, posters, brochures, business cards, magazines, diaries, folders, shopping bags, POP signs etc.

### OPP GLOSS THERMAL LAMINATING FILM

Suitable for thermal lamination of printed and unprinted paper and paper board including: cartons, labels, book covers, posters, brochures, business cards, magazines, diaries, folders, shopping bags, POP signs etc.

### ABOUT PET THERMAL LAMINATING FILMS

Premium quality PET Thermal Laminating Film provides a durable solution in either a crystal clear finish (Gloss) or a smooth matt finish (Matt).

### ULTRA BOND THERMAL LAMINATING FILM

Specially designed for use on digital print media, Ultra Bond Laminating Film has a higher adhesion rate per cm<sup>2</sup> than standard OPP laminating film. The result is that Ultra Bond Laminating Film aggressively adheres to almost any digital print surface. Providing greater clarity, this film is suitable for use with high quality print media and photos. It's multipurpose and innovative design makes it ideal to be utilised on different types of inks like toner-based ink, oil based ink and silicon based ink. With its anti-curling properties, it is less likely to wrinkle during the laminating process and is designed not to ripple or bubble.

### ABOUT LAMINATING FILM & POUCHES

Press Products supplies a full range of laminating and encapsulating films and pouches.

**PRESS PRODUCTS** stocks the following machines and consumables:

#### BINDING SUPPLIES

#### LAMINATING SUPPLIES

#### FOILS

#### PRINT MEDIA

Vinyl, PVC, Paper, Cold Lamination, Backlit Film

#### MACHINES

Twin Wire® Binding Machines  
Plastikoil® Spiral Coil Machines  
Plastic Comb Binding Machines  
Calendar Rimming Machines  
Business Card Cutters  
Case Making Machines  
Booklet Making Machines  
Folding Machines  
Creasing and Perforating Machines  
Paper Guillotines and Trimmers  
Laminating Equipment  
Wide Format Machines  
Tagging Machines  
Foiling Equipment

#### PLUS

We service and repair and offer support for our full range of machines.
